The Great Tit

Animal Lives (11)

Title German	Die Meise
Series German	So leben die Tiere (11)
Genre	Animals
Age	6+
Pages	48
Format	15.3 x 20.5 cm
Edition	Hardcover
Design	Certified with the "Blue Angel" for sustainable production
Sales price	€ 10.00
Pub. Date	June 2023
ISBN	978-3-401-71969-6
Rights of the series	Sold to BE/NL and PCR

A fascinating and informative book about native songbirds and their home environment

The series ANIMAL LIVES provides fascinating knowledge about domestic wildlife and the habitats of wild animals in simple texts: How do these animals live? And what dangers do they face? What should I do if I meet them? Especially endearing, true-to-life illustrations invite the reader to enter the fascinating realm of animals.

'Tea-cher, tea-cher'. You may have heard this song in parks and gardens: it's sung by a little bird with a yellow belly and black head – the great tit. But how did it get its name, and where exactly does it live? And are there any other birds like it living here? Fascinating and educational facts about this smart little bird and other native songbirds.

- Informative book for primary school children on the curriculum topic of songbirds.
- 15 short, self-contained chapters.
- True-to-life, appealing illustrations.
- More than 115,000 copies in the ANIMAL LIVES series sold!

A colouring pencil that's also a magic wand

Hidden patterns and details for children to discover as they colour in – this takes colouring fun to a whole new level! Simply brush the colouring pencil across the page to reveal the surprise.

Colour in to reveal the surprise! The magic paper holds a secret: simply colour it in, and beautiful patterns and hidden designs appear as if by magic! All it takes is a few strokes of the colouring pencil, and suddenly a whole new picture is revealed. Coloured outlines assist children as they colour, while the designs and patterns will fire their imagination. A coloured frame surrounding the picture turns it into a work of art. To your pencils, get set, colour!

- Colour in to reveal the hidden objects and details.
- 40 pictures to delight and surprise.
- Coloured outlines help children as they colour.
- 10,000 copies of the series sold.

Cut out, colour in and stick: crafting fun for Christmas

Children love crafting with scissors, pens and glue, even from a very young age. In this series, they will find 20 exciting craft projects to cut out, colour in and stick. First, choose a picture – separating it from the block is child's play. But there's something missing! Turn to the next page, and there are the missing pieces. Colour them in, cut them out along the extra-thick outline, then glue them onto the picture – finished! What a little work of art! Perfect for giving children an early sense of achievement, and making little crafters' hearts leap with joy.

- 20 Christmas craft projects.
- Extra-thick lines to make cutting easy.
- With scissor-operator's licence.
- 10,000 copies of the series sold.

NON-FICTION // STAND-ALONE TITLES // CURRENT ISSUES

STAND-ALONE TITLES

Our stand-alone non-fiction titles offer fascinating information about current issues in an engaging and fun way. Kids can learn about a wide range of topics, such as the Fridays for Future movement or internet security, in a way that is both educational and entertaining.

YOU FOR FUTURE

'We will not stop demonstrating,' writes Franziska Wessel in a guest column in the Berliner Zeitung. Franziska is pursuing a goal. Decisive measures must finally be taken to protect the climate. While that is not happening, she spends every Friday on the streets, gives interviews and puts pressure on politicians. But climate change isn't the only thing threatening our future. There is so much suffering, injustice and destruction in the world. Something must be done about it. And as a climate activist, Franziska knows exactly how to be active. Together with her father, the journalist and author, Günther Wessel, she explains: How do I start a petition? How do I organise a campaign? How does lobbying work? So that everyone knows how they can make things happen.

IT'S A NERD'S WORLD. THE BRAINS BEHIND YOUTUBE, SMARTPHONES, COMPUTERS & CO.

Smartphone? Cool. The internet? How could you live without it?! It's time to celebrate the people who made it possible. Tobias Schrödel, IT expert and Germany's first comedy hacker, tells stories about the nerds whose hardware, software and internet applications have changed all our lives forever – and that no-one knows. That has to change! Honour to whom honour is due! But be careful: things get absurd, funny, tragic and only a little bit educational.

WTF?! How the Internet Works

Everyone uses it. All day, hour after hour. The Internet! But does everybody understand the Internet? For instance, how does anonymity work in the dark net? And is everything in it illegal? Why do people bully others so viciously online? Can I write and post whatever I like on social media? Why is everyone so concerned about user data? Psychologist Nora Wunderlich, IT security expert Tobias Schrödel, and lawyer Christian Solmecke provide the answers, interspersed with funny anecdotes and examples.

CLIMATE CHANGE. WHAT WE CAN DO NOW

"There is no Planet B!" More and more young people are worried about the future of Planet Earth. Climate change is heating not only the planet but also people's emotions. But what exactly is climate? And why are the changes threatening the lives of both polar bears and us humans. In simple language but with solid science, the authors explain the most important aspects of climate, from the greenhouse effect to the Gulf Stream. Current developments are described as well, and the scientific background is supplemented by gripping reports. The book also offers a glimpse of the future: what will happen if we go on in the same way as now? How can climate change be halted? This makes for riveting reading – and not just for young activists.

29 WINDOWS TO YOUR BRAIN. INGENUOUSLY SIMPLE EXPLANATIONS FOR WHAT IS HAPPENING INSIDE OUR HEADS

How's the purple cow doing? Pretty darn hard to NOT think of something, right? But did you know that you CANNOT tickle yourself?

With the aid of examples taken from daily life, numerous self-tests and exciting insights into current research, the two physicians Alexander Rösler and Philipp Sterzer explain how our brains work. In 29 short chapters they cover the most essential information about our perception, motions, language, love, sleep, memories and our free will.

Includes a large brain map on flap.

The wonders of digestion – a fantastic journey through the body

What goes in at the top must come out at the bottom! Primary schoolchildren Lucy, Taio and Sam go on an exciting journey from belching and farting to pooing. The project for the day is “fartology”, and it leads to lots of laughs, but also to amazement at what our digestive system actually does with the food that passes through the tummy. A “body book” full of fun, with simple medical explanations and useful tips on how to stay healthy.

- A simple explanation of the process of digestion.
- Complete with puzzles and healthy tips.
- The BODY series sold more than 25,000 copies since spring 2021.

NEVIO, THE FEARLESS SCIENCE MOUSE

WHY WE HAVE SEASONS, HOW BLOSSOMS TURN INTO FRUIT AND WHAT ANIMALS EXPERIENCE DURING THE COURSE OF THE YEAR (VOL. 5)

The snow has not yet completely melted when Nevio, the Fearless Science Mouse, discovers a snowdrop. Why is it flowering so soon? Nevio rushes off to research the seasons, together with Flitzi the bee. Why do flowers bloom in spring? When will the cherries finally be ripe? Why do leaves change colour? Nevio and his friends live through a busy spring, summer, autumn and winter and help to uncover the little miracles of the seasons.

Discover with Benny Beaver how things work

Benny Beaver is involved in every adventure. Among other things, he's a master builder. He's always eager to learn something new – in the forest and anywhere else. There's a lot to learn about our environment and Nature. This eventful tale about Benny Beaver and his friends Daisy Duck, Sally Squirrel and Manny Mole is great fun, as is the audio book with its sounds of Nature.

How does flying work? Benny Beaver and his friends are anxious to find out, because Sally Squirrel is due to take part in a big air show. Will a rocket help her? Or an airplane? Or a hot air balloon? Luckily, Benny Beaver is a master builder. Through their experiments, the friends discover simple principles of physics: gravity and lift, rocket propulsion and block and tackle. The lively story enhances technical knowledge and is accompanied by an audio file available for downloading.

- Lessons and experiments with Benny Beaver.
- Helps children to understand technology.
- With simple experiments for children to do themselves.
- More than 145,000 copies of the series sold!

Actively exploring nature – a new picture book of nature study

A new picture book of nature study, with modern design, photos, and illustrations, taking preschool and primary schoolchildren outside into nature, armed with down-loadable tips on what to look for and a guessing game of identifying animal voices. The backpack is full of information and ideas to arouse interest and encourage research, so off you go! You don't even have to travel far in order to see the animals in this book: the butterfly is on the balcony, the frog is in the pond, and the spider is in the hedge. There are so many native creatures simply waiting for you to find and photograph!

- Modern design with hand lettering, photos, and illustrations.
- With tips on what to do outside.
- Animal voices to download, listen to and identify.
- More than 620,000 ANIMAL titles by the author and illustrator sold.

DISCOVER THE ANIMALS SERIES

How do animals in our gardens, fields and forests live? How do they build their homes? How do they rear their offspring? The successful duo Friederun Reichenstetter/Hans-Günther Döring knows how to captivate girls and boys. Their beloved picture book series ANIMALS IN THE WILD (see page 22-23) consists of 20 volumes and has sold over 620,000 copies so far. Children also meet the most popular animals in these lovely illustrated wildlife board books in the spin-off series DISCOVER THE ANIMALS. Children can then apply the knowledge with the MY BIG ANIMAL STICKER BOOK series (p. 26), finally test their knowledge with the QUIZ YOURSELF SMART series (p. 27) and practice how to draw the animals in the ANIMALS FOR TRACING series (p. 28). Rights of the series: Sold to PRC

ARENA LIBRARY OF KNOWLEDGE

The ARENA LIBRARY OF KNOWLEDGE collection turns essential general knowledge into exciting reading material. History, art, science, literature, current topics and events of the past – this series offers entertaining and exciting access to major subjects and issues that have always been fascinating. The innovative concept of the series combines narrative texts with reliable factual information. The collection includes two subseries: LIVING BIOGRAPHIES (7 volumes) and LIVING HISTORY (17 volumes). It is an ongoing success with over 600,000 sold copies so far.

Rights of the series: See individual titles on the following pages

The series **LIVING BIOGRAPHIES** (page 32) brings curious readers a unique, authentic understanding of the great personalities that made global history. Sound but still thrilling, these volumes introduce the most important persons from science, culture and history, and offer insight on their motives, beliefs and dreams.

The **LIVING HISTORY** (page 33) volumes retell the big events of world history from the point of view of eye witnesses. Big rulers and working people alike report thrilling and entertaining facts on the politics, wars and big events of their age, as well as of their everyday life. This way our authors offer an easy approach to the milestones of history.
